

## Meldin® 7211

Meldin® 7211 is 15% by weight graphite and 10% by weight PTFE fillers. It has the lowest coefficient of friction of all the Meldin® 7000 grades. However, above 300 °F, the typical material used is Meldin® 7021, which has a very similar coefficient of friction to 7211 at temperatures above 300 °F, and the wear factor of 7021 is lower than 7211 at temperatures above °F
